

Year UKS2 Orienteering

Knowledge Organiser:
PE

You will learn: how to read maps and a compass whilst locating points. You will also learn to work both independently and as a pair.

Key Vocabulary

Compass	Control card	Control marker	Orienting the map
---------	--------------	----------------	-------------------

How do the control cards work?

What happens if you make a mistake?

Can I link my maths knowledge to orienteering?

Key facts

Children will be familiar with orienteering principles and be able to use a map of the school to follow and locate a sequence of orienteering tabs and accurately stamp their cards from each station. Children should be able to maintain a good level of fitness to compete against themselves and each other over time periods.

Key skills

Children will learn to read points on a compass and follow a sequence. They will learn to work both in pairs and independently. Also, they will be able to locate points on a map accurately and again follow a sequence. Their aim is to beat their personal best time.
