

Year KS1 Rounders (Danish)

Knowledge Organiser:
PE

You will learn: what rounders entails and how to play the basic game of Danish rounders.

Key Vocabulary				
Rounder	Runs	Bases	Bowler	Caught out

Key facts	Key skills
In KS1, children will learn an adaptation of the classic game of rounders. This adaptation requires fewer rules. Children will learn to strike the ball, throw and catch, improve hand eye coordination and work as a team.	Children will practice throwing and catching tennis balls and practice striking a ball with a flat faced bat. They may attempt using a rounders bat if hand eye coordination is good. They will learn the rules of Danish rounders which requires a person to run around all of the bases once they have hit the ball. Also, they will learn to stand sideways on with the bat held in one hand for the correct striking position.
